

Sweet Dreams!

Did you know?

- ◆ Malaria kills more than 2,000 children every day.
- ◆ About half of the world's population is at risk for malaria. Nearly 1 million people die from malaria every year.
- ◆ Children under the age of 5 are most at-risk and account for an alarming percentage of the global malaria-related deaths each year.
- ◆ A treated bed net can protect two or more children for up to four years!

As part of Treasured VBS, our church will take part in an Operation Kid-to-Kid™ mission project that gives kids in North America the opportunity to share God's love with children all over the world. During VBS, kids and adults can bring \$10 donations (any amount is helpful) to help purchase bed nets to keep at-risk children safe from malaria-carrying mosquitoes. Operation Kid-to-Kid is possible through a partnership between Group Publishing VBS programs and World Vision (a Christian international relief organization). All donations will be sent directly to World Vision, who will purchase and then distribute the mosquito nets throughout key African nations and other countries impacted by malaria.

If you would like to contribute to this exciting program, send your donation with your child (or children) this week so it can be added to our community collection. After Treasured ends, our VBS Director will send our full collected donation to World Vision.
